## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 2-7, and 9-15 are allowed.

The following is an examiner's statement of reasons for allowance: see applicant's amendment after final rejection, filed on 7/2/04, page 8, furthermore the prior art of record doesn't teaches that the data receiver is a radio receiver compatible with the RDS standard and receiving a signal according to the RDS standard, A signal-coding unit (fitting with signal generator, figure 2 and item 40) connected to said radio receiver, receiving as input an input signal comprising not-indicative information about said radio receiver, and emitting as outputting an output signal, said signal coding unit combining at least one portion of said input signal with a signal component comprising indicative information about said receiver, the combination between at least one portion of said input signal and said signal component being said output signal; and a transmission unit connected to said signal coding unit, adapted to transmit the output signal emitted as output by said signal coding unit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bandy et al (US006625464B1) discloses codeable programmable receive and point to multipoint messaging system. Kamalski (US006539212B1) discloses
